

Event Enforcement

To the Clinton Town Board,

Please register my concern about the future of our town and the potential to forever change the quiet rural neighborhoods we currently live in and enjoy.

The proposed law is completely void when it comes to enforcement. It fails to outline any process for how permits are renewed or revoked if a venue breaks the rules. Unless the term 'events' is clearly defined before any vote takes place, we will have a huge problem in enforcing. The problem of enforcement will similarly be a big issue with the Milea Vineyards development should the proposal go forward. Once permission is granted, we can never go back.

Please protect the residents of Clinton. We are your first priority. Thank you.
